

Staff Briefing #69

March 11, 2005

Daniel Milei's new opportunity at Santa Barbara County

General Services has tapped ADMHS' own Daniel Milei to replace retiring Dennis Kirby as Assistant General Services Director, Technical Services. We congratulate Daniel on his promotion to this important executive position at Santa Barbara County.

It is no surprise to us that General Services recruited Daniel for his combination of technical expertise, vision, management skill and elegance. It's also no surprise that Daniel found the decision to leave ADMHS an agonizing one, as he is deeply committed to the MIS initiatives currently underway, including the search for an INSYST replacement, development of a new Web site, and many technological improvements.

As a condition of his new employment, Daniel has negotiated to devote a day a week to ADMHS, and he will continue his involvement on many key projects. He has lined up some top notch consultants to help us, including the always-loyal AI Gately.

We will keep you posted on further developments in the leadership of the MIS division as Daniel prepares to assume his new duties on March 28.

- Carrie Topliffe, CPA,
Assistant Director, Administration
